ANALYSIS & OPERATIONS

COMPANY OVERVIEW

Miranmi Consulting & Analytics LLC helps Texas public agencies evaluate programs, quantify economic impact, and defend funding decisions with rigorous, audit-ready analysis. We combine econometric methods, workforce modeling, and cost-benefit analysis to turn complex data into decision-ready findings. Led by a former Air Force manpower analyst and Army operations leader, Miranmi delivers independent results that stand up to executive, council, and legislative scrutiny — from rapid program evaluations and ROI models to Power BI decision dashboards.

CORE CAPABILITIES

- ◆ Program evaluation — process, outcome & impact analysis
- ◆ Economic impact & cost-benefit analysis (ROI, fiscal impact)
- ◆ Performance measurement, KPIs & BI dashboards (Power BI / Fabric)
- ◆ Workforce & demand forecasting and capacity modeling
- ◆ Statistical & econometric modeling with AI-assisted analysis
- ◆ Survey design & stakeholder / sentiment research
- ◆ Fiscal & policy analysis for public programs
- ◆ Grant, funding & feasibility analysis
- ◆ Data-driven decision support for executives & boards

RELEVANT EXPERIENCE

Workforce & Cost-Efficiency Analysis — Air Force Manpower Analysis Agency

Applied forecasting and process modeling to identify over \$1.5M in inefficiencies and automate reporting — cutting report generation from 5 days to 1 day.

Multi-Site Program Management — U.S. Army Medical Operations

Directed a \$5M program across 7 locations and 1,200+ personnel; built performance tracking and process improvements to optimize staffing and resource allocation.

Business Intelligence & ROI Analysis

Built 10+ Power BI / Tableau dashboards integrating multi-source program data and ran cost-benefit modeling — cutting manual reporting 30–40 hours/month and identifying \$100K+ in savings.

Economic & Data Analysis — Program Outcomes

Modeled 1M+ record datasets with econometric and forecasting methods to evaluate program drivers and produce policy-relevant, decision-ready findings.

Survey & Stakeholder Research

Designed and analyzed surveys and 30+ in-depth interviews per engagement; segmented populations and translated findings into actionable program assessments.

Analytics & Operational Consulting — Miranmi

Delivered analytics, financial modeling, and Lean Six Sigma process optimization across client engagements, generating \$250K+ in annual revenue improvements and standardizing KPI reporting across organizations.
